

MASK12UBRA-BL

Mounting U-bracket for MASK12-BL

The special U-bracket MASK12BRA is designed with the installer in mind and is therefore provided with an opening to hook up the MASK12 loudspeaker. The cabinet has fixation bolts already pre-mounted what allows the installer to hang the cabinet into the bracket easily.

No more searching and fizzling when he is on top of his ladder. This special mounting system allows the installer to mount the loudspeaker in the correct position without worrying of the speaker falling down despite the 19kg weight of the loudspeaker.

TECHNICAL SPECIFICATIONS

height in mm	650	width in mm	320
depth in mm	60
