

Large venues and budget consciousness are now within everyone's reach with OVO8-T: your affordable large-sized 100 Volts cabinet speaker. This speaker is big, but thanks to its young and fresh design it fits into any large room, whatever the interior style. And, because this model is 100 Volts it is ideal for application in large projects like company buildings, warehousing, sports infrastructure, open ceiling supermarkets, malls, transportation terminals ... and all areas where you need a speaker with a large woofer and a big cabinet enclosure to generate a powerful sound.

The fresh and young design makes the speaker fit into any décor or interior style. OVO8T can be used for covered outdoor applications, and is available in black and white color. They can be painted in any RAL color from a minimum of 12 pieces (ref.: PAINTCAB8). The included bracket allows flexible positioning, while the sturdy ABS plastic housing and rust free aluminum grill guarantee years of trouble free musical enjoyment. Quick-Fit cable clamps ensure quick and easy mounting. Affordable, but by no means a compromise on sound quality –typically APart!
